

SIDDHARTH SELVARAJ

Full Stack Developer

9445051562 [|sidharthvish61@gmail.com](mailto:sidharthvish61@gmail.com)

Experienced Full Stack Developer with over 4.1 years of expertise in frontend and backend technologies, as well as IT infrastructure. Proven track record in designing robust solutions, developing efficient procedures, and establishing service standards to drive project transformation and business excellence. Skilled in building mobile and web applications along with their backend systems, ensuring smooth project transitions and seamless service delivery.

EXPERIENCE

Full Stack Developer, Factech Automation Solutions Pvt. Ltd, Noida 08/2023 – Present

Role Description

- Designed, developed, and maintained 5 React.js web applications using Redux for state management, improving scalability and maintainability
- Built 9-10 cross-platform Android and iOS applications using React Native and Ionic, ensuring stable performance and seamless feature updates
- Developed and consumed RESTful APIs using Node.js and PHP, supporting multiple frontend applications and microservices
- Optimized backend queries and API responses, significantly improving application performance and reducing response times
- Created independent microservices that reduced client-side complexity by ~30%, earning formal recognition
- Automated backend workflows using PHP-based cron jobs, reducing manual intervention and improving system reliability
- Managed end-to-end mobile app deployments via Google Play Console, including testing, release management, and staged rollouts
- White-labelled 3-4 mobile applications by customizing branding, features, and configurations for different client requirements
- Mentored and guided interns for 2.5 years, conducting code reviews, task planning, and technical knowledge-sharing sessions

UI/UX Developer, Factech Automation Solutions Pvt. Ltd, Noida 08/2022 – 08/2023

Role Description

- Designed and developed responsive React.js web applications, focusing on UI/UX implementation and user interaction flows
- Converted UI/UX designs into clean, reusable React components following modular architecture and Clean Code practices
- Improved usability and visual consistency across web applications by refining components, styles, and interaction patterns
- Identified and fixed frontend bugs and UI performance issues using browser debugging and profiling tools
- Collaborated closely with product and backend teams to align UI behavior with functional requirements

SKILLS

Frameworks: React JS, Angular JS, Ionic, Android-native, React Native, Redux

Development Tools: Android Studio, Bit Bucket, Ubuntu, Docker.

Ticketing Tools: Jira.

Programming: TypeScript, JavaScript, Node JS, PHP, cypher, HTML, CSS.

Data Base Tools : PHP My Admin, Neo4j.

KEY ACHIEVEMENTS

- **Micro-services Development-** Received Formal recognition for creating microservices that reduced client-side-complexity by 30%
- **Product Optimization-** Won a cash Price for a product Optimization Suggestions that improved efficiency and performance
- **Leadership in Rotaract Club-** Elected President of the Rotaract club in collage, leading initiatives and coordinating events
